

LASER_MARKING

NEW LASER MARKING FOR CALIBRATION WEIGHTS AND MASSES

Laser marking service for weights and masses up to 20 kg, for easier and more effective identification and management of each weight. Suitable for ISO quality requirements.

Our solutions for quality assurance and certainty of your measurements.

APPLICATIONS

- Ideal for pharmaceutical industries, laboratories, for all those companies that care about maintaining metrological
- traceability and in any case where there is a need for marking on each mass.

ADVANTAGES

- Does not wear out over time and does not etch the surface, thus avoiding dust deposits and changes in weight stability
- Is made in accordance with the requirements of OIMLR-111
- Can be customised according to company requirements
- Each weight is individually and uniquely identified so that it is no longer possible to confuse weights of the same value.

- *The marking service is available on request for calibration weights and masses of all accuracy classes.*

QUALITY ASSURANCE AND CERTAINTY OF YOUR MEASUREMENTS
