WEIGHT SET WITH WOODEN CASE AND STAINLESS STEEL WEIGHTS IN F1 CLASS

Weight set with wooden case, fitted with stainless steel weights in F1 class according to OIML recommendation R111 and suitable for legal metrology and industrial applications. The precision class F1 allows the use of these weights for checking and calibrating scales and instruments in class II up to 100.000e.

Ideal for the verification of weighing instruments in ISO quality regime.

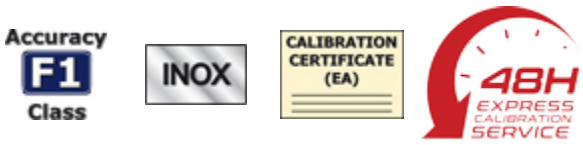
Our solutions for quality assurance and certainty of your measurements.

MAIN FEATURES
WEIGHTS

- Weights in polished and austenitic stainless steel
- F1 precision class
- Compliant with OIML recommendation - R111
- Density 7950 kg/m3
- Accredia (EA) calibration certificate upon request
- Initial verification stamp available upon request

MAIN FEATURES
CASE

- Wooden
- Complete with glove and/or tweezers and/or brush



LASER MARKING SERVICE UPON REQUEST:

- The laser marking service is useful to identify each weight or mass individually. More specifically:
  - The marking allows easier identification and traceability of each weight or mass;
  - It is perfectly smooth, does not remove material from the weight and does not affect the surface, thus avoiding dust deposit;
  - It is customisable, according to the requirements of the companies.

  In addition:
  - It remains unchanged over time;
  - It can be performed on previously purchased masses and weights, of all accuracy classes, from 1 g to 20 kg;
  - It is perfect for pharmaceutical industries and laboratories.

CALIBRATION SERVICE

Below you can see a preview of the calibration certificate. Please pay special attention to point 2. “Required information”, data to be communicated to the laboratory when requesting calibration.

Calibration Certificate
