

PIPETTE

ACCREDIA PIPETTE CALIBRATION

ACCREDIA calibration service of pipettes (microdosers).

Our solutions for quality assurance and certainty of your measurements.

PIPETTES

- ACCREDIA calibration of fixed or variable volume, single- or multi-channel pipettes in accordance with ISO 8655:2022.
- Measurements are taken on 10 dispensing (fixed volume) or 10 dispensing on 3 points (variable volume).
- The LAT calibration certificate is issued.
- The service includes pipette maintenance carried out before the calibration.
- Preventive maintenance consists of greasing and checking wear parts.
- Calibration service time: 7 days from receipt of order.
- Service can also be provided at the customer's site (non-accredited activity).

- CALIBRATION SERVICE

Below you can see a preview of the calibration certificate. Please pay special attention to point 2. "Required information", data to be communicated to the laboratory when requesting calibration.
