## LASER MARKING SERVICE UPON REQUEST:

- The laser marking service is useful to identify each weight or mass individually. More specifically:
    - The marking allows easier identification and traceability of each weight or mass;
    - It is perfectly smooth, does not remove material from the weight and does not affect the surface, thus avoiding dust deposit;
    - It is customisable, according to the requirements of the companies.
- In addition:
- It remains unchanged over time;
  - It can be performed on previously purchased masses and weights, of all accuracy classes, from 1 g to 20 kg;
  - It is perfect for pharmaceutical industries and laboratories.

### CALIBRATION SERVICE

Below you can see a preview of the calibration certificate. Please pay special attention to point 2. "Required information", data to be communicated to the laboratory when requesting calibration.
